GET TO KNOW A PREVENTION CHAMPION

The Minnesota Prevention Resource Center Presents

Get to Know a Prevention Champion

NAME: Gabriel Mooney

OCCUPATION: Regional Clinic Manager, Altu Health

LOCATION: Roseau, MN

How does your work contribute to alcohol, tobacco, and other drug prevention in Minnesota?

My roles at the clinic and as a coalition member enable me to learn the concerns of the community in relation to the clinic. I can then bring those concerns back to the clinic and strategize with our team on how to make changes to address them, communicating back to the coalition. An example of this is pain contracts our healthcare providers use with patients who are on pain medications long term. We have expanded this to other prescription medications as the concerns and needs of the community evolve.

NEWS

Where has full-scale marijuana commercialization led Colorado in the last 6 years? Here's a story from the Denver Post's, Guest Columnist Bob Troyer.
